Fridge and freezer temperature log

Venue: _____ **Week starting:** _____ **Probe or display used:** _____

Write the actual reading (4.0, not a tick). If a reading is above the highest safe reading, write what you did (moved the food, adjusted the thermostat, called an engineer, threw food away) and check it again.

Day	Date	Check	Fridge 1 name: _____	Fridge 2 name: _____	Bar fridge name: _____	Freezer 1 name: _____	Freezer 2 name: _____	Time	Checked by	Action if out of range, and re-check	Mgr
Highest safe reading °C			**5**	**5**	**5**	**-18**	**-18**	Common targets: fridges 5°C or below, freezers -18°C or below. Use the limits in your own food safety plan.
